

NUCTECH™ WePass

Smart Access Control System

NUCTECH™ WePass intelligent access control system is newly developed by NUCTECH COMPANY LIMITED. The system integrates functions such as facial recognition, body temperature measurement, identification of ID card and ticket, trace detection of explosives, etc. It can be interconnected with different information system, security system, security inspection system and quarantine system. While ensuring safety and high throughput, WePass provides a better inspection experience for the passengers. It can be deployed at the entrance and exit of the airport terminal, in front of the security checkpoint, at the boarding gate, as well as at the entrance of subway station, stadium, important building, etc.

Technical Characteristics

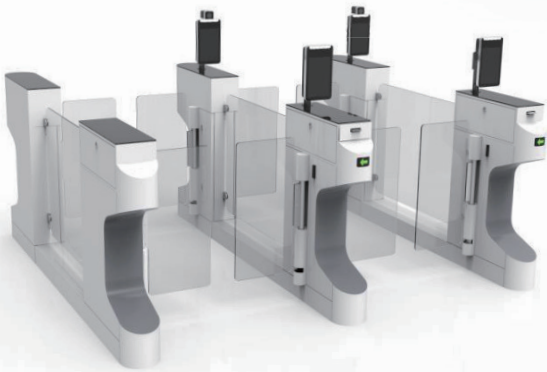

- **High compatibility**
It can be integrated with information systems, CCTV systems, security equipment, etc., to realize real-time information transmission.
- **Body temperature measurement**
It can integrate with a self-developed temperature measurement module to quickly detect body temperature of passengers.
- **Contrabands detection**
It can realize trace detection of explosives passing through.
- **Modular design**
The system is modular designed, which can be customized according to different requirement.
- **Centralized remote control**
Centralized remote control can be realized to facilitate operation and management to the system.
- **Low construction cost**
Related cables can be integrated in the display screen so that to reduce on-site construction costs.

NUCTECH™ WePass

Smart Access Control System

WePass E

Integrated with
explosives trace
detection

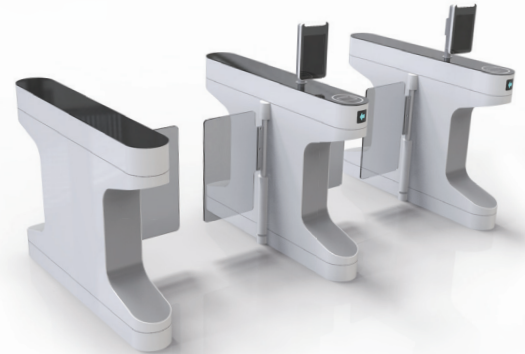

WePass C

Facial and ID
identification

WePass S

Single barrier
High throughput

Function	WePass E	WePass C	WePass S
One-way Barrier			●
Dual-way Barrier	●	●	
Multiple ID Identification		○	○
Boarding Pass / Ticket Identification	○	○	○
Facial Recognition & Comparison	●	●	●
Body Temperature Measurement ($\pm 0.3^{\circ}\text{C}$)	●	●	●
Explosives Trace Detection	●		
Anti-tailing	●	●	
Remote Management	○	○	○
